

Subject: Satellite Radio

I PAY good money for the privelege of listening to WHAT I want, WHEN I want on XM Satellite Radio. That privilege I willingly pay my hard earned dollars for *allows* me to listen at will to whatever stations offered by XM Satellite Radio.

I do NOT WANT the FCC to let ANYONE interfere with MY listening pleasure.

IF I wanted to listen to the very public FM band of radio I would, but I do NOT.

Do the public right by NOT allowing ANY lobbyist to get the FCC involved with XM Satellite Radio that I pay for willingly.

I understand that you are being lobbied by FM broadcasters the FCC now regulates in turn to regulate and monitor what essentially amounts to PRIVATELY PAID FOR BY ME radio stations on XM Radio. I do NOT want the FCC involved in this lobbying effort by those rich, powerful interests who have NO interests of mine or my friends who also SUBSCRIBE to XM Radio at heart.

I implore you to do your job, let PRIVATE SUBSCRIBER XM Radio continue to be the business success it has been for millions of people just like me.

The FCC has no place in regulating XM Satellite Radio or ANY other venue similar in nature that WE, the PAYING SUBSCRIBERS, pay for.

Please continue to do the job you were hired to do and leave MY XM Satellite Radio subscribtion PRIVATE as it was intended to be when I WILLINGLY signed on to receive what I want to hear -- and PAY for.

Sincerely,

T Meeker
